

Internship - FullStack DEV : JS / PHP - JAVA

Axel HUSSON, 23

+33 7 86 71 03 64 — axelhusson.pro@gmail.com — <https://www.linkedin.com/in/axelhusson/> — <https://github.com/HussonAxel>

Full-Stack Developer with 3 years of experience delivering web applications using technologies such as React, Angular, Java, Drupal, WordPress, and AdonisJS. Seeking internship focused on Java and Angular development to complement my advanced curriculum, ideally structured with a 4-day work / 1-day study schedule.

Technical skills

Core Languages	TypeScript/JavaScript, HTML5, CSS3/SCSS, Java
Frontend Development	React, Angular, State Management (Redux Toolkit, Zustand), Styling (Tailwind CSS, Styled-components, PandaCSS), Component Libraries (shadcn/ui, Framer Motion), Data Management (TanStack)
Backend Development	AdonisJS, Java Spring Boot, Headless CMS (Drupal, WordPress), API Development (REST, GraphQL), API Specification (OpenAPI/Swagger)
Testing & Quality	Unit Testing (Jest), Integration Testing, React Testing Library, API Testing (Postman, Insomnia)
DevOps & Tools	Docker, Git, CI/CD, Ansible, Version Control Platforms (GitHub, GitLab)
Development Practices	Web Accessibility (WCAG), Clean Code, Documentation
Languages	French (Native), English (C1)

Experiences

Fullstack developper (TMA) - SMILE - Lille, France September 2022 - Present

- **PHP, Drupal, WordPress (Headless), Symfony, Laravel, Vue.js, React, Next.js, JavaScript, GraphQL, Ansible, GitLab CI** — Full-stack development across diverse projects.
 - Developed and maintained complex **Drupal** and **WordPress** sites (including headless with **React/Next.js**), focusing on custom modules/themes, multi-site/multi-lingual setups, and version upgrades.
 - Built backend systems and APIs using **PHP** frameworks (**Symfony, Laravel**).
 - Developed frontend interfaces with **Vue.js** and **React/Next.js**, including **jQuery** to **JavaScript** refactoring.
 - Implemented **CI/CD** automation using **Ansible** and **GitLab CI**.
 - Integrated third-party services: **APIs** (Facebook, Mobile), **CRM** (HubSpot), **Analytics** (GTM, Matomo), **Compliance** (Didomi, Tarte au Citron).
 - Managed web performance (**Varnish**), security (**Pentests**, Friendly Captcha), **SEO**, and automated tasks (**cron, Bash**).
 - Consistently delivered new features and bug fixes across multiple platforms.
-

Education

Application Developer - Java, Angular (RNCP Level 7 / Bac+5)

September 2025 - September 2026 *OpenClassrooms*

Application Developer - Javascript, React (RNCP Level 6 / Bac+3/4)

September 2023 - September 2025 *OpenClassrooms*

Web Developer - HTML, CSS, JS (RNCP Level 5 / Bac+2)

September 2022 - September 2023 *OpenClassrooms*

Projects

Pokemon Living Dex (PLD) — Build In Public - In progress

Since 2025

Website: [Pokemon Living Dex](#)

Developing and deployed the Pokémon Living Dex tracker, a web application designed to help Pokémon players manage and visualize their progress towards collecting every available Pokémon species. Features include checklists spanning multiple generations.

Vanya Stolarski — Site auteur

Since 2024

Website: [vanyastolarski.fr](#)

Developed and maintain the official website for author Vanya Stolarski. The site serves as a central hub for information about the author, showcasing their published works, providing news or blog updates, and offering contact details.

Personal Projects Learning

Since 2022

GitHub: [github.com/HussonAxel](#)

Actively develops and shares personal projects on GitHub. This repository includes work completed during OpenClassrooms training alongside self-directed explorations of new web technologies and frameworks, demonstrating a commitment to continuous learning and practical skill application.
